WORK EXPERIENCE

 **Web Developer**

Aug 2024 – Sep 2024

Offered by: Suvidha Foundation

Contributed to website development using HTML, CSS3, and JavaScript. Optimized site performance by compressing images, minifying scripts, and reducing load times, resulting in faster, more efficient web pages. Ensured cross-browser compatibility by testing and debugging across multiple browsers. Stayed updated with the latest web development trends, implementing new techniques to improve the site's UI/UX.

PROJECTS

Slotify

June 2024 – Sep 2024

Developed an online booking system using React.js, React Router, Hooks, and Redux that allowed users to schedule time slots for banking transactions. This significantly reduced wait times and customer queues, increasing customer satisfaction and retention by providing a streamlined and user-friendly scheduling experience. [resumeItem](#) **Demo**

Photography Club Website

June 2024

Snap Syndicate is a website developed using React.js for the photography club of the institute. It highlights the top photos of the year, details upcoming events, and provides information about workshops. This platform was delivered to the club to showcase their best work and keep members informed. [resumeItem](#) **Demo**
