EDUCATION

IIT Dharwad

2021 – 2025

Bachelor of Technology in Mechanical Engineering

WORK EXPERIENCE

Web Developer

Aug 2024 – Sep 2024

Suvidha Foundation

Contributed to website development using HTML, CSS3, and JavaScript. Optimized site performance by compressing images, minifying scripts, and reducing load times, resulting in faster, more efficient web pages. Ensured cross-browser compatibility by testing and debugging across multiple browsers. Stayed updated with the latest web development trends, implementing new techniques to improve the site's UI/UX.

Teaching Assistant, HoE, Control Systems Lab and Fluid Mechanics Lab

Jan 2025 – Apr 2025

IIT Dharwad

Assisting in conducting lab sessions, grading assignments, and helping students understand key concepts in the Hands on Engineering (HoE) and Control Systems Lab courses. Providing guidance on experiments and troubleshooting technical issues.

PROJECTS

Slotify (JavaScript, API)

Developed an online booking system using React.js, React Router, Hooks, and Redux that allowed users to schedule time slots for banking transactions. This significantly reduced wait times and customer queues, increasing customer satisfaction and retention by providing a streamlined and user-friendly scheduling experience.

Segregation of E-Waste

May 2024 - Nov 2024

Engineered a 3D model of a co-bot designed to pick e-waste from shredded components, incorporating a modified conveyor belt system to maintain efficiency without reducing speed. Collaborated with a team of three and partnered with universities on a project sponsored by Dassault's Connect-Next program.

Virtual Prototyping of DSIF Using Unity

Jan 2025 - Apr 2025

Designed a detailed 3D model of a 6-axis CNC machine in SOLIDWORKS and integrated it into a VR environment using Unity for immersive testing. Developed G-code execution scripts to simulate multi-axis toolpaths and machining operations, including DSIF. Evaluated complex geometries to validate performance and collaborated with research teams on training and digital twin applications.

TECHNICAL SKILLS

Languages: C, Java, Bash, JavaScript, $\LaTeX$, C#

Web Technologies: HTML, CSS, JavaScript, RESTful API, React.js, SQL

Simulation & Development Tools: Unity, G-code, Git/GitHub, VS Code, Eclipse, SOLIDWORKS, 3DEXPERIENCE

Technologies & Concepts: Virtual Reality (VR), CNC Programming, Digital Twin, Multi-Axis Toolpath Simulation

ONLINE CERTIFIED COURSES

1.Full Stack Web development 2.Business Analyst

POSITIONS OF RESPONSIBILITIES

Coordinator, ShodhYAntrikI, IIT Dharwad

Oct 2023 – Nov 2023

Led a team of 20 students in organizing an Annual Symposium with over 200 participants, including competitions, poster presentations, and workshops.

Member, IIC, IIT Dharwad

Aug 2023 – Apr 2025

Collaborated with peers to conduct engaging events and sessions for students at IIT Dharwad.

Council Member, Focus, IIT Dharwad

Jan 2023 – Apr 2025

Worked with peers to organize photography workshops and events at IIT Dharwad, enhancing student skills and fostering a photography community.
